RELEVANT EXPERIENCE

Gopius E-Learning Services

Oct 2025 — Present

Frontend Engineer

- Lead frontend development on a full-scale Learning Management System, independently building and shipping 2 core features end-to-end, including a gamification system to boost learner engagement.
- Developed and maintained 4 key pages and a library of reusable components using React, Next.js, and Tailwind CSS, ensuring UI consistency across the platform.
- Improved page load times and reduced bundle size through code splitting and performance-focused frontend architecture.
- Collaborate within a 3-person development team, consistently delivering clean, well-structured code validated through senior developer review.

YourStudyPath (YSP)

Feb 2025 — Sep 2025

Developer

- Built and maintained website pages for an exam-preparation ed-tech platform serving 50,000+ students across West Africa, using React, TypeScript, and Tailwind CSS.
- Collaborated within an 8-9 person team, contributing to a shared design system and maintaining UI consistency across the platform.
- Strengthened collaborative development skills through consistent use of Git and GitHub in a team-based workflow.

SKILLS

Languages

JavaScript (ES6+), TypeScript,
HTML, CSS

Libraries & Frameworks
